

PRESS RELEASE

There was an article that appeared in FlightGlobal today reporting Interjet is in talks with Sukhoi to sell our SSJ100 fleet back to them. Interjet declares this is not true. The Sukhoi Superjet 100 has been an integral part of Interjet's success and we will continue to operate this aircraft. *When Interjet's CEO, Jose Luis Garza commented, "we are finalizing amicable negotiations" he was referring to current discussions underway with Sukhoi for improving cooperation to become more competitive and successful.* All the conclusions of the said article, in Interjet's view, are not accurate and could be misleading.
